

Hi George,

There are no recreational trails in this area of Sandia Canyon or in Sandia Canyon in general. Trails users should have no exposure to this area. I was the LANL doc manager for the Trails EA.

The Trails EA is available at <http://library.lanl.gov/cgi-bin/getfile?DOEEA-1431.htm>

If you cannot access the EA I will find a different way.

Have a good weekend.

Best Regards,

Dan

Dan,

QUESTION 1: By any chance, do you know if there are any recreation trails in Sandia Canyon (or at least in Reach S-2, where the wetland is located?)

QUESTION 2: Is the LANL Trails EA available online (or are the 2 Trails Assessments what some people have referred to as the Trails EA)?

REASON FOR ASKING: While Bob Hull, John Stetson, and I were discussing the wetland, a question came up on how close recreational trails might be to it, and it was suggested I touch base with you. A LANL Trails webpage (http://www.lanl.gov/environment/outreach/working_groups/tawg.shtml#mentions) mentions trails in TA-70 and TA-71, but I didn't see anything about TA-61 (where the wetland is located).

Have a great weekend.

Thanks,

George
